enero 2023

BIENVENIDOS

La ciudad de Norwalk en asociación con la Cámara de Comercio de Greater Norwalk Comercio

Conozca a la fuerza laboral de la ciudad de Norwalk
Coordinador de Desarrollo

Rhea Henry, desarrollo de la fuerza laboral
Coordinador

Si está interesado en recibir su un
boletín de oportunidades, comuníquese con Rhea Henry en el

rhenry@norwalkacts.org.

¡Bienvenido a la primera edición del Boletín de Desarrollo de la Fuerza Laboral de Norwalk! La Ciudad de Norwalk y Norwalk ACTS han lanzado una asociación para apoyar el fortalecimiento de los esfuerzos de desarrollo de la fuerza laboral en la Ciudad de Norwalk. A través de esta asociación vino la contratación del primer Coordinador de Desarrollo de la Fuerza Laboral de la ciudad. Rhea Henry es la Coordinadora de Desarrollo de la Fuerza Laboral de la Ciudad de Norwalk, y su rol funciona para fortalecer la colaboración, la conexión y la alineación entre estas partes interesadas en el Ecosistema de Desarrollo de la Fuerza Laboral de Norwalk y para promover la colaboración del sistema. El propósito de este boletín es destacar y anunciar oportunidades de capacitación y educación para el desarrollo de la fuerza laboral, oportunidades de empleo y recursos para residentes, proveedores y empleadores en Norwalk.

No dude en enviar la primera edición de este boletín a su red e indíqueles que escaneen el código QR a continuación para suscribirse al boletín y mantenerse actualizado sobre los últimos esfuerzos y oportunidades de desarrollo de la fuerza laboral en Norwalk.

Los solicitantes de empleo ahora pueden acceder a un portal de admisión en línea para conectarse a oportunidades de capacitación, mejora de habilidades o próximas habilidades, junto con una lista en constante crecimiento de programas de capacitación.

New England Laborers' Training Trust Fund Construction Craft Obrero

Programa de aprendizaje

El Programa de aprendizaje de trabajadores artesanales de la construcción de LIUNA Training puede prepararlo para una carrera próspera en la industria de la construcción.

Los aprendices de LIUNA, independientemente de su experiencia, inmediatamente comienzan a ganar un salario mientras aprenden en el trabajo y en el salón de clases.

RECURSOS Y FINANCIACIÓN

El Programa de Aprendizaje del Fondo de Innovación Manufacturera (FOMIN)

El Programa de Aprendizaje del Fondo de Innovación en la Manufactura (FOMIN) apoya una combinación de capacitación en el trabajo e instrucción en el aula para aprendices en la industria manufacturera de Connecticut. Los solicitantes pueden buscar asistencia en la forma de una subvención equivalente para subsidios salariales, reembolso de matrícula y pruebas de competencia. No es necesario reembolsar los fondos, siempre que el solicitante cumpla con los entregables y cumpla con los términos y condiciones del acuerdo.

¡Aplica hoy!

El programa de crédito fiscal JobsCT es un programa de reembolso diseñado para proporcionar créditos fiscales reembolsables para empresas en industrias específicas que están aumentando su fuerza laboral en Connecticut.

Este nuevo programa reemplaza el programa de subvenciones JobsCT ofrecido anteriormente por el Departamento de Desarrollo Económico Comunitario de Connecticut y es una forma de incentivar a las empresas con créditos contra futuros ingresos fiscales, en lugar de subvenciones respaldadas por bonos que se pagan con intereses.

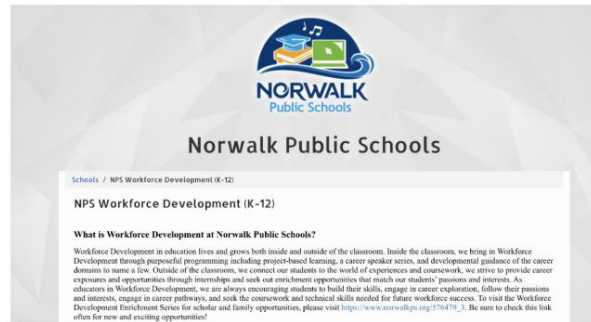

El nuevo programa, promulgado por la Asamblea General, es aplicable a los años fiscales que comiencen a partir del 1 de enero de 2023.

WHAT STUDENTS ARE SAYING:

Everything is interactive here. I'm not just listening to people talk; instead, I get to do the things I am learning about.

Lynn
Amity Regional High School '22

The people are caring and they do their best to help me learn what is important to me. It is a great place to come when you are trying to acquire new skills, and it's a productive way to spend your time.

Jorge
Wilbur Cross High School '21

synchrony | Stamford program funded by the Synchrony Foundation's Education as an Equalizer Initiative.

CURRENT STATE OF THE INDUSTRY

In the next decade, one billion jobs—almost one-third of jobs worldwide—are expected to be transformed by technology. Nearly 40 percent of Connecticut employers cited the lack of needed skills and expertise as the key challenge to finding qualified young workers.

Additionally, the graph above, which shows the growth of computer science undergrads over the past three decades, highlights a disparity in the representation of BIPOC, Female, and LGBTQ+ individuals in the professions with the highest earning and the greatest opportunity to have an impact on shaping society for the next hundred years.

PREPARING FOR YOUR FUTURE:

We provide programs so students can develop the skills, experience, and mindset needed to be successful upon high school graduation—whether they're pursuing higher education or a career.

These programs focus on:

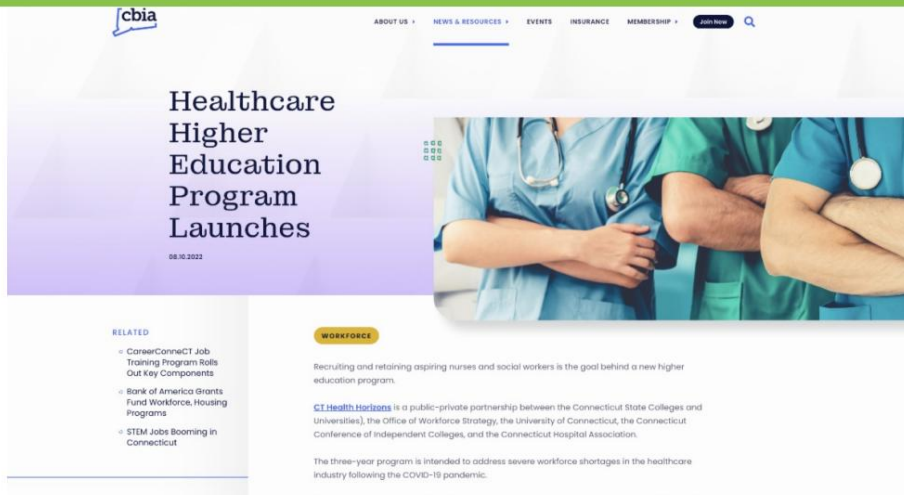

- Learner-centric programs that teach skills and invite the student to create
- Creating tangible portfolio projects the students can use to show skill in future endeavors
- Group learning that correlates into integration in future workplaces and organizations

All students will receive a foundation in Digital Life.

Software Engineering

An 12 month immersion where students will learn and build multiple websites and web apps culminating in a capstone project of their choosing.

WORKFORCE

Recruiting and retaining aspiring nurses and social workers is the goal behind a new higher education program.

CT Health Horizons is a public-private partnership between the Connecticut State Colleges and Universities, the Office of Workforce Strategy, the University of Connecticut, the Connecticut Conference of Independent Colleges, and the Connecticut Hospital Association.

The three-year program is intended to address severe workforce shortages in the healthcare industry following the COVID-19 pandemic.
